
INTRODUCTION

January 2004 Supplement to the Sunflower Army Ammunition Plant December 1999 EA

This document is intended to provide updated information that may have changed since the publication of the EA in 1999. The information provided herein is based on the best available current information. The *Annotated Table of Contents* within this Supplemental EA represents the original EA's contents, noting where there have been changes that are contained in this Supplemental EA.

The updated information in this Supplemental EA falls into one of the following categories:

- Changes in the proposed reuses of the property
- Mitigation for historic resources on the property
- Demographic or publicly available statistical information currently available
- Current status of the contamination characterization and clean-up activities

This document identifies potential impacts and mitigation (if any) resulting from changes in the proposed reuse, changes in the environment of the Sunflower Army Ammunition Plant property since December 1999, and additional mitigation that has been or may be undertaken to minimize impacts from the Proposed Disposal.

A copy of the entire December 1999 EA can be reviewed or downloaded from the GSA Property Disposal web site located at:
